

I started my college leadership as a Hall Senator for Alder Hall. The image at right is my acceptance email into the virtual position.

More Details:

During the first few weeks at UW, I observed posters advertising positions for Alder representatives and leaders in the Hall Council of the resident hall. Hoping to expand upon my leadership skills, I applied and interviewed with the Assistant Director of Alder Hall, eventually being granted the position of AWUS Representative for Alder. In this role, I communicate the interests of Alder residents to ASUW proceedings while also keeping residents informed as to current proceedings of the senate. As such, I have developed my capacity to communicate candidly with my peers, engaged with upper level members of the ASUW organization in a meaningful manner, and developed relationships with upper classmen that have increased my confidence both inside and outside of ASUW Senate proceedings. Continuing in this role as an Alder Hall Senator, I aim to write legislation in accordance with the interests of my constituents/residents while progressing further as a leader of the UW student community.
